

BigMouth Mounting Pouch Laminator

High-quality pouch laminating, as well as mounting, up to 3/16" thick. Originally developed by USI in 1985, the BigMouth met the growing popularity of laminating and mounting prints and documents. Due to its continued popularity and the demand for a heavy-duty version, the BigMouth was retooled and re-engineered to meet the demands of the 21st century. UL approved. Now with a 2-year warranty.

Machine Highlights
